Issue 4 – January 2019

Gentry Restorations Parts Catalogue

Gentry Restorations Ltd is the official restorer for Bugatti Automobiles S.A.S. Molsheim and one of the leading, vintage Bugatti car restorers in the world. The experience gained by restoring these iconic cars, has resulted in the business storing and manufacturing a wide range of parts. The company has over 4000 individual parts lines and over 1000 of them are manufactured in-house.

This catalogue represents the parts that are frequently available from immediate stock – almost 650 line items. However, owing to the high-value of many Bugatti parts and components, some have to be machined and manufactured to order. In addition, if you cannot find the part you are looking for within this catalogue, it doesn't mean it's not available. Contact us first and we'll soon confirm whether or not we can make the part available to you.

Collectively, the engineers and technicians at Gentry Restorations have over 200 years of experience working with vintage Bugattis. All the necessary equipment, skills, knowledge and technology is available in-house and there is absolutely nothing that the team cannot do when it comes to solving problems restoring these most treasured cars. The company has access to original Bugatti factory drawings and its engineers have the ability to make almost anything - even if it's not for a Bugatti. The company's engineering skills are transferable and all the engineers need is a drawing, picture or even the old part that needs replacing - and they'll be able to manufacture it for you.

Please note that all photographs within this catalogue are for indication purposes only and not necessarily fully representative of the completed component or indeed to scale

Refunds

Refunds can be given on any parts purchased - provided they are returned in the same condition as they were sold and accompanied by their original invoice. The company reserves the right to make a handling charge for returned items and the maximum term for refunds is 12 months from date of invoice. All return carriage charges must be borne by the customer.

Unfortunately, the company cannot extend this refund policy to bespoke, manufactured items.

Payment for Purchases

Written estimates are always provided before any transactions take place. Full payment is required before or at the time of dispatch. This can be done by bank transfer or credit/debit card - except American Express. All payments must be made in pounds sterling.

The parts department is open Monday to Friday 08:00hrs - 18:00hrs UK time - contact details:

Phone: +44 (0) 1844 338346 Fax: +44 (0) 1844 338347

Email: parts@gentryrestorations.co.uk Website: www.gentryrestorations.co.uk If the business is closed, send your requirements by email or fax and we will respond just as soon as we can.

Gentry Restorations manufactures the complete range of king pins for all Bugatti types. However, owing to the complex nature of fitting these components, the company does not sell them for customers to install themselves. All king pins undergo very specific heat treatment processes to ensure that they are safe to use. If you need new king pins for your car, please contact us. We can either fit them for you or send them to an engineering workshop of your choice for them to fit.
