Gentry Restorations Parts Catalogue

Gentry Restorations Ltd is the official restorer for Bugatti Automobiles SAS Molsheim and one of the most highly-respected vintage Bugatti car restorers in the world. The experience gained restoring these iconic cars has resulted in manufacturing a wide range of parts. The company has around 3000 individual parts lines and almost one third of them are manufactured in-house.

This catalogue shows the parts that are available. Owing to the high value of many of them, some are manufactured to order. The parts that are immediately available are identified with **(Stock)**. All other parts will be subject to a manufacturing lead-time. The lead-time will depend on the volume of work we're committed to and the complexity of the component required. Occasionally, lead-times can be improved for a premium on the list price. For all parts not shown as stock items, please contact us for specific details and timings. If you can't find the part you're looking for, it doesn't necessarily mean it's not available. Please contact us and we'll confirm whether or not we can manufacture the item for you.

Our engineers and technicians have vast experience of working with vintage Bugattis. All the necessary equipment, skills, knowledge and technology are available in-house. There is absolutely no problem our team cannot overcome when it comes to restoring these highly-desirable cars. We have access to original Bugatti factory drawings and our engineers have the ability to manufacture almost anything - even if it's not for a Bugatti. The company's engineering skills are transferable. Our engineers just need a drawing, a picture, or even the old part that needs replacing and they'll almost certainly be able to manufacture it for you.

Please note some photographs in this catalogue are for identification purposes only and not necessarily fully representative of the completed component.

Returns and Refunds Policy

Refunds can be given on certain parts listed in this catalogue, provided they're returned with the original invoice and in the same condition they were sold. The company reserves the right to make a handling charge for returned items. The time limit for returns requiring refunds is 3 months from the date of invoice. All return carriage charges must be borne by the customer. Please note, the company **WILL NOT** give refunds for **BESPOKE** manufactured items.

Payment for Purchases

Official estimates are always provided before transactions take place. Full payment is required before, or at the time of, dispatch. This can be done by bank transfer or credit/debit card (with the exception of American Express). All payments must be made in UK pounds sterling.

The parts department is open Monday to Friday 08:00hrs – 17.00hrs UK time

Phone: + 44 (0) 1844 338346

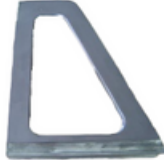

Email: parts@gentryrestorations.co.uk Website: www.gentryrestorations.co.uk If the business is closed, please send your requirements by email, we'll respond just as soon as we can.

		Kingpins & Steering Arms (Stock Items) Gentry Restorations manufactures the complete range of kingpins and steering arms for all Bugatti model types. However, owing to the complex nature of fitting them, it would be wrong of us to supply for home or do-it-yourself installation. These components undergo heat treatment and hardness tests to ensure they're safe to use. If you need these items, we can either fit them for you, or send them to a reputable engineering workshop of your choice, for the personnel there to install.
